**(937) 548-1482**

**GREENVILLE-** The City of Greenville is certainly disappointed with the decision made by the Greenville Township Trustees but that is their decision, we accept it and we wish them the best.

We were saddened the Township refused to return to the negotiating table since May 1. We also thought the Township would be encouraged to see our last proposal which was within the parameters they required. The proposal stayed within their revenue stream and that is what we sought to accomplish.

It is important for the residents of the City of Greenville to know they will still receive the same level of fire protection service they currently obtain.
